1. INTRODUCTION and WELCOME

Dear friends,

Welcome to the 46 RallyRACC Catalunya-COSTA DAURADA / Rally de España 2010 which will be having its nerve centre in the province of Tarragona for the sixth year in a row.

This edition will once again be counting on the support of our invaluable collaborators in the area of Tarragona, i.e. Costa Daurada, Salou, Tarragona Chamber of Commerce and PortAventura, all of which make it possible for us to enjoy and experience the World Rally Championship in our country.

The excellent facilities of the PortAventura Resort, including its Convention Centre, will be hosting the Rally Headquarters, the Race Control and the Media Centre.

The Service Park will be located, as usual, a few metres away from there. It will be the single service park for the whole event.

This year, coinciding with the 20th anniversary of our rally in the WRC, we will be going back to the origins and have gravel tracks as a distinguishing element in our itinerary. On the first rally Day, i.e. Friday, we will enjoy a complete gravel stage and two mixed (gravel and asphalt) stages, the three of which will be run twice. The second and third Day will be run completely on asphalt, including stages that were raced last year.

Another novelty for this year is the Shakedown stage which will be staged in the area of Salou, with the close collaboration of the Town Council. Thus we will be meeting the suggestions of some teams and have a Shakedown in the nerve centre of our rally, avoiding the need to move the service teams.

As usual, the whole organization is looking forward to helping you to make your participation as easy as possible.

See you in October!

Best regards,

2.3 Brief event history

Since its beginnings in 1906, the Reial Automòbil Club de Catalunya (RACC) has been in charge of the organisation of the most prestigious car and motorbike racing events in Spain.

The activities in the world of rallying started long ago, back in 1916, when the RACC promoted the Volta a Catalunya, the predecessor of the Rally Catalunya, which started in 1957 and was organised yearly, except for nine years, from 1965, during which it was replaced by the Rally Barcelona-Andorra.

The race became a classic event in the national calendar so that new challenges were marked on an international level in order to become part of the European Championship calendar. In 1988, the two most important rallies of the country, scoring with the highest coefficient in the European Championship, i.e. the Rally Catalunya and the Rally Costa Brava, decided to get together to become a scoring round of the World Championship.

Finally, in 1991, the FIA included the Rally Catalunya-Costa Brava, with its nerve centre in Lloret de Mar, a well-known city in the province of Girona, in the World Championship calendar.

The high organization and sporting level reached by the event is reflected by the two awards achieved in 1996 and 1997, in which the event was declared Best Rally of the Year by the World Rally Teams Association (WRTA), in addition to being considered the best event of the World Championship by the World Rally Press Association (WRPA) in 1997.

After fourteen years linked to the Costa Brava, the event changed its location in 2005, moving to the Costa Daurada, in the province of Tarragona. The event was renamed accordingly, thus becoming the RallyRACC Catalunya-Costa Daurada and recovering some of the stages raced in other editions of the rally, in which the cars visited the region of Tarragona.

The tourist village of Salou and the PortAventura theme park became the new nerve centre of the event, with a large offer of tourist services and hotel infrastructure. The podium is located on the Salou Promenade, while the facilities of PortAventura Resort are host to the headquarters, media centre and service park of the RallyRACC Catalunya-Costa Daurada, in its sixth year on the roads of Tarragona.

6. TWO-WAY RADIO

All radio-electric transmitter installations in cars are always subject to a previous authorization request. A frequency assignment is to be asked for at the Spanish Telecommunications Offices.

We inform you that Telecom cannot allocate frequency pairs that do not comply with Spanish regulations stating that reception and transmission frequencies must be separated.

In Spain, this separation must be:

UHF 410-465 Mhz. High frequency transmission repeater, separation between RX and TX 10 Mhz.

VHF 146-174 Mhz. High frequency transmission repeater, separation between RX and TX 4.6 Mhz.

Even with the best of intentions in order to provide us with the requested frequencies, the Telecom staff cannot legally authorise us to use frequency pairs that do not comply with these requirements.

Radio frequencies request fees 350 €

Competitors wishing to use 2-way radios during the rally will find the Radio Licence application form on the rally website www.rallyracc.com under the section "Competitors/Forms".

The Rally Office must receive all applications for licences, with payment, **before Monday 6th September 2010.**

Manufacturers entered in WRC are exempt from paying when submitting their applications; Radio licences fees are included on Manufacturers Package.

Any infringement of the law will render the breachers liable to proceedings and if their frequencies interfere with the organisation network sanctions could **lead to exclusion.**
